Summary

With a strong foundation in my early years, my journey began with my first international trip to Moscow in 9th grade, inspired by my visionary father, Shri Nihalbhai Bhurani.

I started my career in our family business, Fivestar Dehydration, leading operations as Managing Director in the dehydrated onion and garlic sector.

Post graduation, I joined United Foods as a marketing partner and rose to become Managing Partner, helping scale it into India's second-largest peanut butter exporter, now present in over 50 countries.

In 2023, I founded United Epicure Pvt. Ltd., launching our brand "Nutty and More" with a mission to drive conscious, sustainable food choices and redefine the Indian food landscape.
